

Your Digital Ski Map & In-Town Tour Guide

What does it do?

ON THE MOUNTAIN

- “Digital Trail Map” that provides directions to all chairlifts and trails, and also offers specific trail information, including level of difficulty and alternate routes.
- Locations and directions to lodges, restaurants, restrooms, ski patrol services, and other on-mountain services.
- “Meet Me” feature, which allows groups to go their separate ways and return to a specific meeting point at a designated time, automatically mapped out on your FUNfinder device.
- Ski Stats package which displays your progress on the mountain, constantly calculating your max & average speed, total distance travelled, total vertical distance covered, and your total number of completed runs.

ON THE TOWN

- Includes a directory of local restaurants, shops, bars, hotels, and many other services.
- Offers maps, directions, and distance to local establishments.
- Special promotional offers to local businesses strictly for FUNfinder GPS users.

FUNfinder GPS serves Vail, Breckenridge, Beaver Creek and Keystone and works when on the slopes, traveling by car between mountains & when you're on foot or in the car checking out the local nightlife in nearby ski towns.

Ski Stats

Download stats & maps to see where you have been.

- Average / Max Speed
- Total Distance Covered
- Total Vertical Feet Skied
- Number of Runs Completed

Share your stats automatically on the Snow Days Internet leaderboard, and compare yourself against other skiers and snowboarders in the area and all your Facebook friends!
